

The strategy of the Balanced 10 is to track the top 10 largest cryptocurrencies¹, by market capitalisation, as closely as possible. This strategy holds each constituent of the top 10 largest cryptocurrencies¹ with weightings proportional to each respective cryptocurrency's market capitalisation. These weightings and constituents are rebalanced on a weekly basis.

Key Features

Notes

- The coins considered for inclusion in the Balanced 10 strategy are limited to those listed on the Cryptoinvest platform.
- The graph above assumes that a nominal value of 100 followed the Cryptoinvest Balanced 10 strategy for a duration of 12 months ending 31 August 2020.
- The returns above are approximate and indicative figures, and are represented in base currency ZAR.
- The approximate returns above achieved by the Balanced 10 strategy are net of the annual fee.
- The annual fee covers all rebalancing and cold storage transaction costs.
- Backdated price and market capitalisation data is obtained from coinmarketcap.com.
- Past performance is not indicative of future performance and loss of capital is a possibility.
- Every effort has been made to ensure the accuracy of the backdated performance above, however, real world performance may have differed.
